TIPs for Writing Report

- **Acknowledgment Format**

I would like to thank [Company Name] for providing me the opportunity to intern and gain industry exposure. I am especially grateful to my supervisor [Name] at the organization for their guidance and support. I also express my gratitude to my faculty advisor [Name], and the Department of Computer Science at [University Name] for facilitating this internship.

- **Preparation of abstract:**

This report summarizes my 8-week internship at [Company Name], where I worked on [Project Title/Area]. My work involved [briefly describe]. Through this internship, I gained hands-on experience in [key skills/technologies]. The project helped me bridge the gap between academic concepts and practical industry applications.

- **General Instructions for Report writing Tips:**

1. Use **past tense** and **first person** (“I developed...”, “I worked on...”).
2. Use **formal academic language**.
3. Break large paragraphs into readable sections.
4. Avoid spelling or grammatical errors—use tools like Grammarly if needed.
5. Add **Screenshots** of your work (UI designs, terminal outputs, diagrams).
6. Include **Code snippets** wherever necessary (only highlight the important parts).
7. Check for **consistency in fonts, headings, and line spacing**.
8. Make sure all sections are included and ordered correctly.
9. Add **page numbers** and **proper section headers**.

- **PAGE DIMENSIONS AND MARGIN:**

The dimensions of the final bound copies of the project report should be 290mm x 205mm. Standard A4 size (297mm x 210mm) paper may be used for preparing the copies. The final copies of the project report (at the time of submission) should have the following page margins:

Top edge	:	30 to 35 mm
Bottom edge	:	25 to 30 mm
Left side	:	35 to 40 mm
Right side	:	20 to 25 mm
Line spacing	:	1.5 lines

The project report should be prepared on good quality white paper. Tables and figures should conform to the margin specifications. Large size figures should be photographically or otherwise reduced to the appropriate size before insertion.
