STUDENT DECLARATION

I hereby declare that the Summer Internship Report entitled “Vehicle Assistance Scheme” Submitted to **Alagappa Government Arts College, Karaikudi** , in partial fulfillment of the requirements for the award Of the degree of B.Sc Computer Science, is the result of my own work carried out during the Internship at NST Education Pvt. This report has not been submitted, wholly or in part, to any other university or institution for Any other degree or diploma.

I further declare that all data and information in the report have been obtained and presented As per academic and ethical standards.

Student Name	:M DINESH
Enrollment Number	: 23BCE1240
Course	: B.Sc.(Computer Science)
College Name	: Alagappa Government Arts College (Karaikudi)
Internship Duration	: From 16/05/2025 to 16/06/2025

Date: 01.09.2025

Place: Karaikudi

Signature: _____

Alagappa Government Arts College,

Department of Computer Science

INTERNSHIP COMPLETION CERTIFICATE

This is to certify that **Mr. M.DINESH**, bearing Roll Number **23BCE1240**, a student of **B.Sc in Computer Science, fourth Semester**, has successfully completed the Summer Internship at National Soft Tech Education Pvt., from **16.05.2025** to **16.06.2025**, as part of the curriculum requirement.

The internship was carried out under the guidance of **B. PremKumar AI Engineer** and the student has submitted a detailed report of the work undertaken. During the internship, the student was involved in projects related to:

The project **Faculty Publication Tracker** was developed to enable students to upload, browse, and download study materials with rating and comment features. It was built using **HTML, CSS, JavaScript, Python (Flask), and MySQL**, covering both frontend and backend with database integration and UI/UX design.

- **Frontend:** HTML, CSS, JavaScript
- **Backend:** Python (Flask Framework)
- **Database:** MySQL **Tools Used:** VS Code, MySQL Workbench, Browser developer tool

Based on the report and feedback received, the internship is considered satisfactory and complete.

We wish **SOORYA J** continued success in future endeavours.

Date: 01.09.2025

(Proforma for the Evaluation of the intern by the supervisor/to whom the intern was reporting in the organization)

Professional Evaluation of intern

Name of intern: _____

College/institution: _____

[Note: Give a score in the 1-5 scale by putting √ in the respective cells]

Sr No	Particular	Excellent	Very Good	Good	Moderate	Satisfactory
1	Attendance					
2	Punctuality					
3	Adaptability					
4	Ability to shoulder responsibility					
5	Ability to work in a team					
6	Written and oral communication skills					
7	Problem solving skills					
8	Ability to grasp new concepts					
9	Ability to complete task					
10	Quality of work done					

Acknowledgement

I would like to sincerely thank **National Soft Tech (NST Education Pvt. Ltd.), Karaikudi** for giving me the opportunity to intern and gain valuable industry exposure. My heartfelt gratitude goes to my supervisor, **Mr. B. PREM KUMAR**, for his constant guidance and encouragement throughout the internship.

I am also grateful to the entire National Soft Tech team for their support and for creating a positive work environment.

I wish to extend my thanks to my principal **Dr. VASANTHI M.Sc., M.Phil., Ph.D.**, Alagappa Government Arts College, Karaikudi who has provided all facilities and made the project successful.

I wish to thank my Head of the department **Dr. K. C. CHANDRASEKARAN M.Sc., M.Phil., PGDCA., Ph.D.**, Associate Professor and Head, Alagappa Government Arts College Karaikudi, for facilitating this internship as part of the curriculum and for their continued support and encouragement.

Special thanks to my internal guide, **P. A. MORALIE, MCA., M.Phil** Guest Lecturer Alagappa Government Arts College, Karaikudi for their valuable suggestions and encouragement.

Finally, I thank **Alagappa Government Arts College, Karaikudi** for providing this opportunity, which has been an enriching and rewarding experience.

By

M. DINESH

III B.Sc (Computer Science)

ABSTRACT

The internship project titled “*Vehicle Assistance Scheme*” was developed as part of my training at **National Soft Tech (NST Education Pvt. Ltd.)**. The primary objective of the project is to create a web-based application that provides users with an efficient platform to access and manage vehicle-related services. The system simplifies the process of requesting assistance, registering vehicle details, and ensuring that administrators can effectively manage service requests and user information.

The project was implemented using **PHP** as the backend programming language, **MySQL** as the database for storing and retrieving structured data, and **HTML, CSS, and JavaScript** for designing an interactive and responsive frontend interface. The integration of these technologies allowed the development of a user-friendly, reliable, and secure platform. Users can register, log in, and submit assistance requests, while administrators can validate, monitor, and respond to these requests.

Through this project, I gained practical knowledge in **full-stack web development**, including database design, server-side scripting, client-side interactivity, and user interface design. In addition, I was able to understand the importance of web application security, role-based authentication, and efficient database management.

The *Vehicle Assistance Scheme* serves as a practical model for digitizing vehicle-related support systems. It not only reduces manual effort but also improves accuracy, accessibility, and service management. The knowledge and skills gained during the development of this project will serve as a strong foundation for my future career in computer science and software development.
